Cole Hersee Co.

SUPER 7

seven conductor cable assemblies for tractor to trailer electrical connections

The unique design of Super 7 Cable Assemblies provides complete flexibility with a superior coil memory to prevent sagging. Small diameter coils eliminate tangling with other lines. No stiffening or cracking in extreme cold (-70°F) temperatures. The specially formulated armor-tough insulation provides longer life, exceptional resistance against damage from cutting and abrasive agents and repels oil, gas, chemicals and ozone.

Conductors are 100% pure electrical copper for maximum conductivity with wire ends tinned to provide solid connections. Insulation is color coded for standard circuit identification.

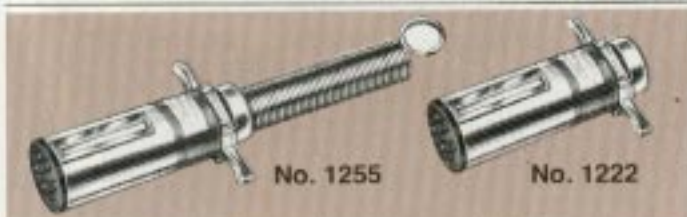

Super 7 cable has one #10 gauge wire, six #12 gauge wires and it is one third lighter in weight than neoprene or rubber covered cables.

Super 7 Cable Assemblies and Super 7 Trailer Connectors are manufactured to Cole Hersee Company's highest standards for quality, safety, dependability and in accordance with applicable S.A.E., A.T.A., T.T.M.A., and R.C.C.C., specifications.

ORDERING GUIDE

seven conductor cable assemblies for tractor to trailer electrical connections

seven pole plugs for Super 7 Cable Assemblies

The King of all die cast connectors. Features Cole Hersee's exclusive "Spring-Grip" electrical contacts.

No. 1255 With plated spring steel cable protector.
No. 1222 Without cable protector.

New Super 7 design. Improved die cast metal housing with snap-out interior.

No. 12092 With plated spring steel cable protector.
No. 12091 Without cable protector.

New Super 7 design. Space age plastic housing with snap-out interior.

No. 12082 With plated spring steel cable protector.
No. 12081 Without cable protector.

cables have one #10 gauge wire and six #12 gauge wires

Coiled Cable Assemblies — 12' Working Length

Part No.	Description
11247	Two No. 1255 plugs assembled
11216-04	Two No. 1222 plugs assembled
11247-01	Two No. 12092 plugs assembled
11216-06	Two No. 12091 plugs assembled
11247-02	Two No. 12082 plugs assembled
11217	One No. 1255 plug assembled
11216	One No. 1222 plug assembled
11217-06	One No. 12092 plug assembled
11216-05	One No. 12091 plug assembled

Straight Cable Assemblies — 10'-8" Long

Part No.	Description
11127	Two No. 1255 plugs assembled
11128	Two No. 1222 plugs assembled
11127-05	Two No. 12092 plugs assembled
11128-07	Two No. 12091 plugs assembled

Straight Cable Assemblies — 10'-4" Long

Part No.	Description
11005	One No. 1255 plug assembled
11004	One No. 1222 plug assembled
11005-02	One No. 12092 plug assembled
11004-01	One No. 12091 plug assembled

Straight Cable — available by the foot

Part No.	Description
4077	Super 7 Cable — No plugs

Variations of Super 7 Cable Assemblies are available. Please consult factory.
